- Evaluation

Submission

- One video
  - Uploaded to Youtube, then put the link at the first page of your slide.
  - If you can not register a Google account, please tell me by email in one week, I will ask IT colleague to provide help.
  - Or you can use the Zoom to record your presentation, then put the link in the slides or directly share it inline the submission.
- One slide
  - MATH304-YourName-Proj-Presentataion.pdf

Requirement

- Time of the video
  - Around 7-8 minutes.
  - If the time is too short (i.e., less than 5 minutes) or too long (i.e., more than 10 minutes), 1 mark will be deducted per minute (up to 5 marks).

- Show your face and presentation slides in the video
  - E.g., slide is on the screen, and your face is shown in the right-top corner.

Suggestion

- Describe your report in the presentation.
  - The content can be reused.
- Your suggested outline
  - Introduction.
  - Methodology
  - Experimental results
  - Discussion and Conclusion
- At the beginning, give a self-introduction by a sentence
- At the end, say Thanks.

Evaluation

- Content
- Time control
- Clear voice
- Show your confidence on the understanding
- Presentation skills, e.g., eyes, gesture

Thanks
